

Fundamentals of Jungian Psychology

Fall 2016

A class offered by the C. G. Jung Institute of Colorado

Jungian psychology connects us to the rich and mysterious inner world that our culture so often discounts. This class will look at that inner world and at the man who gave us a new way to approach its contents. Analysts and advanced Training Candidates of the Jung Institute of Colorado will lead discussions on some of the fundamental principles in Jungian psychology and explore Jung's ideas with participants. This is an excellent opportunity to work with the members of the Jung Institute of Colorado, and the class is designed to be enjoyed by beginners as well as individuals who are "experienced" in Jungian studies. The classes will be on Thursdays.
