**SPRING 2015**  
**STUDY GROUP IN JUNGIAN PSYCHOLOGY**

An ongoing monthly seminar providing an in-depth study of the substance of C.G. Jung's work—the how and why of his ideas, as well as practical applications. Each semester, participants will meet for four or five sessions under the tutelage of diplomate Jungian analysts. A variety of subjects will be taught, including (generally) structure and dynamics of the psyche, complexes and psychopathology, dream, fairy tale and picture interpretation, and archetypes of the collective unconscious. The seminar is a prerequisite for application to the Analyst Training Program and is open to the general public.
